

Section A

Section A holds one embedded image below this paragraph.
The body font size must beat the heading font size in total
character count so the two heading lines classify as headings.

Section B

PDF_CHAIN_SECTION_B_MARKER appears in this section of the file.
Section B carries plain text only, with no embedded pictures at all.
The body font size must beat the heading font size in total
character count so the two heading lines classify as headings.
